(559) 798-1837 \$58,460

Hickory Elementary School Lindsay

Provide construction staking for new school, subcontracted to:
Forcum/Mackey Construction, Inc., Richard Mendenhall, Project Superintendent,
(559) 798-1837 \$18,570

Design Projects

Hwy 216 (Lemon Cove)

Provide topography and boundary survey for road design and right of way acquisition.
Peters Engineering Group, David Peters, Civil Engineer, (559) 299-1544

Airport Projects

Fresno Yosemite International

Provide topography surveys and construction staking for utilities, taxiways, runways, pavement, buildings, hangars and other structures associated with airport construction.

Granite Construction Fresno, Mark Curfman, Project Manager

(559) 441-5700

\$54,040

Stockton Airport

Provide topography surveys and mapping for AG Spanos building.

Madera Airport

Provide topography surveys and construction staking for utilities, taxiways, runways, pavement, buildings, hangars and other structures associated with airport construction.

Sam Schneider Airport Operations Manager

(559) 674-6958

Merced Airport

Provide topography surveys and construction staking for utilities, taxiways, runways, pavement, buildings, hangars and other structures associated with airport construction.

DASR Sites

Provide Boundary, topography and construction staking for DASR (radar tower) at Fresno Yosemite International and Merced Airports.

Fresno Yosemite International Airport Runway & Taxiway

Fresno

Provide construction staking for runway reconstruction & new lighting, subcontracted to:

Granite Construction Fresno, Mark Curfman, Project Manager

(559) 441-5700

\$54,040

Taxiway Relocation

Hanford

Provide construction staking for taxiway relocation & new lighting, subcontracted to:

RJ Berry Jr., Inc., Doug Bibb, Project Manager

(559) 896-1680

\$13,940

Fresno Yosemite International Airport Taxiway 'B' Reconstruction **Fresno**

Provide construction staking for taxiway reconstruction & new lighting, subcontracted to:
Teichert Construction Fresno, Danny Warren, Project Manger

Chandler Airport

Provide topography surveys and construction staking for utilities, taxiways, runways, pavement, buildings, hangers and other structures associated with airport construction.

Coalinga Airport

Provide topography surveys and construction staking for utilities, taxiways, runways, pavement, buildings, hangers and other structures associated with airport construction.

Mariposa Airport

Provide topography surveys and construction staking for utilities, taxiways, runways, pavement, buildings, hangers and other structures associated with airport construction.

Visalia Airport

Provide topography surveys and construction staking for utilities, taxiways, runways, pavement, buildings, hangers and other structures associated with airport construction.

(559) 813-3035

\$41,885

Military Projects

Fresno Air National Guard

Provide boundary and topography surveys, and construction staking for parking lots, utilities, pavement, buildings and other structures.

Fresno AVCRAD

Provide topography surveys and construction staking for parking lots, utilities, pavement, buildings and other structures.

Lemoore Naval Air Station

Provide topography surveys and construction staking for parking lots, utilities, pavement, buildings and other structures.

Castle Air Force Base

Provide boundary and topography surveys, and construction staking for parking lots, utilities, pavement, buildings and other structures.

Travis Air Force Base

Provide boundary and topography surveys, and construction staking for parking lots, utilities, pavement, buildings and other structures.

H-671 Youth Center

Lemoore Naval Air Station

Provide construction staking for parking lots, utilities, pavement, buildings and other structures.

Actus Lend Lease, Mike Sanders, Senior Project Engineer

(559) 997-4850

\$35,480

Federal Projects

Federal Highways Administration Generals Highway 2004

Provide construction staking for parking and boat ramps as well as topography and calculation of earthwork quantities.

Philip E. George,

Stimpel Wiebelhaus Assoc.,

pegeorge@stimpel.net

Federal Highways Administration Generals Highway 2006-2007

Sequoia

Provide construction staking for parking and boat ramps as well as topography and calculation of earthwork quantities.

Agee Construction Company, Lynn Allred, Project Superintendent

(559) 299-3290

\$237,541

Merced River Br. - El Portal Rd.

Yosemite

Provide construction staking for road reconstruction & new bridge.

American Civil Constructors West Coast, Inc. Jared Herrington,
(707) 746-8028

\$60,283

Construction of El Portal Rd - CA PRA Yose 16-2

Campus Pointe 144 & 244	Fresno
Provide construction staking for new apartments at CSUF workforce & student housing sites, subcontracted to: PCI, Chris McKee, Project Manager (559) 278-6200	\$86,860

Underground Utilities Projects

Highlands Sewer Connection	Carmel
Provide construction staking for new sanitary sewer, subcontracted to: Anderson Pacific Engineering Construction, Inc., Doug Sereda, Project Superintendent, (408) 970-9900	\$19,575

Forrest Lake Wastewater Reclamation**Pebble Beach**

Provide construction staking for reconstructing wastewater reclamation, subcontracted to:
Anderson Pacific Engineering Construction, Inc., Doug Sereda, Project Superintendent,
(408) 970-9900 \$25,482

Pipeline Projects**Los Vaqueros**

Provide construction staking for 21 miles of pipeline and structures.

Department of Water Resources Reach 2

Provide construction staking for 16 miles of pipeline and structures.

Department of Water Resources Reach 3

Provide topography and construction staking for 8 miles of pipeline and structures.

Department of Water Resources Reach 4

Provide construction staking for 9 miles of pipeline and structures.

Westland Water District

Provide construction staking for 4 miles of pipeline and structures.

CALTRANS Highway Projects**State Route 180, Segment 4, District 6, Design (12 miles)**

Perform Project Control, Photogrammetric Control, Record Data Search, Initial Land Net Recovery, Preliminary Boundary Determination, prepare Land Net and Right of Way Mapping.

State Route 168, Segments 2, 3, 4, 5 & 6, District 6

Provide construction staking per CALTRANS standards for earthwork, utilities, pavement and other structures associated with freeway construction.

State Route 180, Segment 3, District 6, Design

Perform Project Control, Photogrammetric Control, Record Data Search, Initial Land Net Recovery, Preliminary Boundary Determination, prepare Land Net and Right of Way Mapping.

CALTRANS Contract No.05X067

Provide on-call construction staking services for the restoration of storm-damaged highways in Districts 5, 6 and 9 (Central Region).

CALTRANS GIS data collection

Provide GIS data for major highways in District 10.

CALTRANS Contract No. 03A0219-A

Provide on-call surveying services for the design and development of P S & E's of storm-damaged highways in Districts 1, 3 (North Region).

California State Prison Secure Treatment Facility Coalinga

Provide construction staking for the earthwork as well as building layout, utilities, fences, and concrete work

State Route 41, District 6

Provide construction staking per CALTRANS standards for earthwork, utilities, pavement and other structures associated with freeway construction.

State Route 50 at Howe Ave interchange

Provide construction staking per CALTRANS standards for earthwork, utilities, pavement and other structures associated with freeway construction.

State Route 80 at Greenback & Elkhorn interchange

Provide construction staking per CALTRANS standards for earthwork, utilities, pavement and other structures associated with freeway construction.

CALTRANS GIS data collection

Provide GIS data for major highways in District 10.

California Department of Corrections Projects

Avenal State Prison

Provide topography survey for electrified fence and waste water ponds.

California Correctional Center (Susanville)

Provide topography and boundary survey for future expansion.

California Correctional Institution (Tehachapi)

Provide topography survey for electrified fence and construction staking for water line.

California Institution for Men (Chino)

Provide topography survey for electrified fence and boundary for due diligence.

California Men's Colony (San Luis Obispo)

Provide topography and boundary survey for electrified fence and future expansion.

California Medical Facility (Vacaville)

Provide topography and boundary survey for electrified fence and future expansion.

California Substance Abuse Treatment Facility and State Prison, Corcoran

Provide topography and boundary survey for electrified fence.

Central California Women's Facility (Chowchilla)

Provide topography and boundary survey for electrified fence.

Chuckawalla Valley State Prison (Blythe)

Provide topography survey for new chilled water line and structures, and boundary for due diligence.

Corcoran State Prison

Provide topography and boundary survey for electrified fence.

Correctional Training Facility (Soledad)

Provide topography and boundary survey for electrified fence.

Deuel Vocational Institution (Tracy)

Provide topography and boundary survey for electrified fence.

High Desert State Prison (Susanville)

Provide topography and boundary survey for future expansion.

North Kern State Prison (Delano)

Provide topography and boundary survey for electrified fence. Provide topography surveying for the new Delano II State Prison adjacent to the existing North Kern State Prison.

Pelican Bay State Prison (Crescent City)

Provide topography and boundary survey for electrified fence.

Pleasant Valley State Prison (Coalinga)

Provide topography and boundary survey for electrified fence. Provide construction surveying for the new Secure Treatment Facility adjacent to the existing Pleasant Valley Prison.

R.J. Donovan Correctional Facility at Rock Mountain (San Diego)

Provide topography and boundary survey for future expansion.

Salinas Valley State Prison (Soledad)

Provide construction surveying for utilities and grading.

Sierra Conservation Center (Jamestown)

Provide topography and boundary survey for electrified fence.

Valley State Prison for Women (Chowchilla)

Provide topography and boundary survey for electrified fence.
